The slave trade, like many other trades, has its managers, its brokers, or go-betweens, and its capitalists .-The first class is composed of Cubans, Brazilians, Portugese, and occasionally Americans-the latter from New York, Boston and other down-east points, and Baltimore. > SINGULAR TRADITION .- Among the Seminole Indians there is a singular tradition regarding the white man's origin and superiority. They say that when the great Spirit made the earth, he also made three men, all of whom of fair complexion; and that, after making them, he led them to the margin of a small lake and bade them leap therein and wash. One immediately obeyed, and came from the water purer than before; the second hesitated a moment, during which time the water, agitated by the first, had become slightly muddy, and folk, wholesale Agents. when he had bathed he came up copper-colored; the third did not leap in till the water became black with mud, and he came out with his own color. Then the Great Spirit laid before them three packages of bark, and bade them choose; and, out of pity for his misfortune in color, gave the black man the first choice. He took hold of each of the packages, and, having felt the weight, chose the heaviest; the copper-colored one then chose the second heaviest, leaving the white man the lightest. When the packages were opened the first was found to contain spades, hoes and all the implements of labor; the second enwrapped hunting, fishing and warlike apparatus; the third gave to the white man, pens, ink and paper-the engine of the mind-the mutual, mental improvement—the social link of human—the foundation of the white man's superiority.

'The same qualities in the machine are required in one case as in the other. The only real objection to our machines was on the score of their lack of beauty in form and ornamentation. That defliciency has been fully supplied. We offer now the handsomest Sewing-Machines as well as the best. The admirable working qualities which Greenville, N. C., by the Rev. Edwin Geer, Dr. WILLIAM have made our standard Machines indispensable in the work-shop, have been transferred to our family machines, which will hereafter be deemed indispensable in the parlor. We shall have a full assortment of these world-renowned Machines early in September. The demand has increased so much, we have found it necessary to employ the services and adaptation of all Sewing-Machines possessing any de-

gree of merit. He may be found at our establishment after the 15th September.
